## OMEGA VINYL GLOVES HIGH RESISTANCE AND SAFETY ON YOUR FARM

Ref. 4182-00M  
Ref. 4182-00L

### Description

- Gloves made of transparent, powder-free vinyl.
- Non sterile.
- Rolled edge for easy glove use.
- High resistance, great softness, flexibility and maximum level of dexterity, which reduces arm and hand fatigue.
- Suitable for people with latex allergies.

### Uses and applications

- Industry in general.
- Cleaning.
- Suitable for food use.

### Recommendations

- It is recommended that the glove be checked and tested before use, and periodically during use, to make sure that no damage is present, which can significantly affect the protection expected.
- Replace immediately if any deterioration is observed in the glove.
- For their conservation and storage, they should be away from heat sources and light bulbs.
- Store in cool and dry places.
- It is recommended to keep the package for possible consultation.
